Barry/Chuck, Thanks for the update on the delineation. Good detail on the work. By the way, I have been working up the costs and will be forwarding a new TDD for another delineation to support CDPHE at the Schwartzwalder Mine site.

Most importantly, I really need START to get the ARR to me this week - Wednesday if possible. Could you tell me what changes are needed to the figures.

Also, if START staff can't do the figures, let me know ASAP, and please forward me copies of all the electronic files. I may be able to have our GIS staff/ESAT help me out.

Sincerely,

Sabrina Forrest

Subject: Upper Animas status

I sent out the request for a proposal to do the wetlands delineation on Friday. I've asked that responses be in by this Friday, August 12th.

I sent to URS and to Toeroek & Associates in Lakewood.

Please see attached request and map.

I have to make a few changes to the sediment section and then look over the ARR one last time.

I plan to have the editor look it over tomorrow while I have jury duty and then the text should be ready for you. The maps are what is lagging now. Our GIS people are heavily involved in field work, but they promise to get the revisions done this week.
